Church Description:

Mosaic Boston, founded in 2004, is a multi-ethnic church community comprised primarily of young professionals and college students longing to embody Christ-centered community in the midst of its local neighborhood. Our hope is that Mosaic becomes a movement of expanding communities that serve Boston and the world as gospel-renewal agents in personal spirituality, relationships, the arts, and urban healing.

Earlier this year, Mosaic's head pastor of five years answered a call to ministry in Chicago. Our church is currently in a replanting stage and has established a new leadership team that is excited to see how God will continue to use the church in the building of His kingdom on earth.
